Datanational Corporation Accepted into IBM Cloud Computing Specialty Program

Farmington Hills, MI. - Datanational Corporation, a leading provider of enterprise software solutions, has been accepted into an exclusive IBM Cloud Computing Specialty Program. The IBM Cloud Computing Specialty Program consists of five solution areas for IBM Business Partners who demonstrate their expertise and client success in cloud computing. These areas include cloud application providers, cloud builders, cloud infrastructure providers, cloud services solution providers, and cloud technology providers. In order to qualify for this program, Datanational was required to meet IBM criteria in application hosting, sales and technical skills, revenue, and client references.

Datanational Corporation, as an IBM Cloud Computing Specialty Business Partner, has proven implementation skills and expertise in creative problem solving, innovative services and IBM technologies to deliver the right eBusiness solutions to their customers. Being an IBM Cloud Specialty Business Partner also signifies that the Datanational Corporation has committed to deliver a high level of proven customer satisfaction.
