Datanational Corporation to Host Disaster Recovery Webinar

Farmington Hills, MI. - Datanational Corporation, a leading provider of enterprise software solutions, will be hosting a webinar addressing a new approach to disaster recovery for the IBM System i. The webinar will be a 30 minute informational overview of this turn-key solution. It will take place on February 29 at 2 PM EST (11 AM PST).

The webinar will feature a different approach to Disaster Recovery for IBM Power Systems running IBM i. Our approach will not only provide an opportunity to significantly reduce recovery times by providing a turn-key disk-to-disk backup solution, it may also deliver immediate improvements to your bottom line by reducing your operational expenses related to the daily tape management and offsite tape storage and transportation fees.

To register for the webinar, visit <https://www3.gotomeeting.com/register/388747438>.
