Datanational Corporation to Exhibit and Hold Session at MITEC 2012

Farmington Hills, MI. - Datanational Corporation, a leading provider of enterprise software solutions, will be an exhibitor and hold a session at MITEC 2012, Michigan's IBM i and AIX Technical Education Conference. The conference will be held on Tuesday, June 12 2012 at the VisTaTech Center, Schoolcraft College in Livonia, Michigan.

MITEC 2012 offers an affordable way for companies to stay on top of new technologies. Topics at the conference will include RPG, PHP, CL, SQL, Disaster Recovery, BRMS, Open Source, DB2 Web Query, AIX Updates, IFS, Web Development, XML, RDP, Security and many more. MITEC offers a variety of topics through-out the day, allowing for a flexible schedule that is sure to pack the most education into your day.

Datanational's Derrick Smith and Kevin Thweatt will hold a session regarding a Cloud-based Backup Solution for IBM i. This approach will not only provide an opportunity to significantly reduce recovery times by providing a turn-key disk-to-disk backup solution, it may also deliver immediate improvements to a company's bottom line by reducing operational expenses related to the daily tape management and offsite tape storage and transportation fees.
