Datanational Corporation to Host Cloud-based Disk to Disk Backup Webinar

Farmington Hills, MI. - Datanational Corporation, a leading provider of enterprise software solutions and an IBM Cloud Specialty Business Partner, will be hosting a webinar addressing a Cloud-based Backup Solution for all major platforms, including Windows, System i, Linux and AIX. The webinar will be a 30 minute informational overview of this turn-key solution. It will take place on Thursday, September 20th at 2 PM EDT (11 AM PDT).

The webinar will discuss how Datanational's cloud backup solution offers best-in-class data backup and recovery service. With their pay-as-you-go program, customers get disk storage for fast and secure backups and restores and offsite replication to the Datanational cloud. This solution may also deliver immediate improvements to a customer's bottom line by reducing their operational expenses related to the daily tape management and offsite tape storage and transportation fees.

To register for the webinar, visit <https://www3.gotomeeting.com/register/279635558>.
